

Levels of Listening – Basic Practice:

Preparation:

- Impulse lecture – Introducing the Levels of Listening
- Flipchart-Sheet divided in 4 quarters; write the names of the levels on each quarter. Assign one card that matches the level to each quarter.

Briefing for the participants:

1.	Get together in groups of 4 persons.
2.	One card is already assigned one card to each level. Please assign the remaining cards to the levels that suit the sentence or the thought.
3.	Each of you should formulate and assign at least one sentence of yourself. Write your suggestions on the empty cards.
4.	You can also talk in your group about why you have sorted the cards in this way and perhaps give other examples from your daily work.
5.	After all the groups are finished, go around and take a look at the solutions of the others.
6.	Finally, we will talk in the plenary about your thoughts and experiences in allocating the cards.

Please note that there is no fix solution for this task. Some cards can suit to more than one level.

Duration: 30 min – 60 min (depending on group size and level)
